Overview:

Link to Cell allows your Panasonic Link-to-Cell supported phone(*) to notify you when you received a text message, mail, or a scheduled event. When this feature is turned on, your DECT phone will use its Bluetooth feature to check your cell phone for new messages and events.

*Link-to-Cell supported phone: KX-TGF37x, TGF38x, TGE46x, TGE47x, TGL46x, TGM43x, TGD56x, TGD59xC, TGF57x, KX-TG585SK, TG175CSK, TG153CSK, TG684SK, TG674SK, TG744SK, TG785SK

Contents:

Help

"Link to Cell" app does not start

- Activate cell phone Bluetooth. * Check cell phone Bluetooth paired device.
 - 1. There is no Panasonic DECT.
 - This app requires a Panasonic DECT phone base unit to be paired via Bluetooth. Please pair Panasonic Link-to-Cell supported phone. 2. There are more than 2 Panasonic DECT phones
 - This app supports only one DECT phone base unit at a time. Please unpair any DECT phones you will not be using with this app.
 - 3. There is Panasonic DECT, but it was renamed. Unpair and Pair Panasonic DECT phone again.

"App Alerts" feature does not work

- Check Panasonic DECT model No. "Link to Cell" app is only-for Panasonic Link-to-Cell supported phone.
- * Check Bluetooth connection. "App Alerts" works only when cell phone and Panasonic DECT are connected via Bluetooth. * Check "Link to Cell" App alerts setting. Mark "Enable alerts from app" and desired app items.
- * Check cell phone setting -> accessibility -> Application Alerts manager is ON. (*1) (*1) Turning on [Application Alerts manager]
- Use the following procedure after installing the Link to Cell app.
- Android 2.x:
- Open your device's [Settings] app. -> Tap [Accessibility]. -> Turn on the [Accessibility] and [Application Alerts manager] checkboxes.
- Android 4.x:/Android 5.x:/Android 6.x:
- Open your device's [Settings] app. -> Tap [Accessibility]. -> Turn on [Application Alerts manager]. Android 7.x:
- Open your device's [Settings] app. -> Tap [Advanced settings]. -> Tap [Accessibility]. -> Turn on [Application Alerts manager].
- If it is already ON, please reset the setting by turning it 'OFF' -> 'ON'.
- * Check each cell phone application settings.
- To enable App Alerts notification, the events should be come up on the cell phone notification bar.
- * "App Alerts" does not work when DECT phone is in use.

"Phone Setting" feature does not work

- Check Panasonic DECT model No. "Link to Cell" app is only-for Panasonic Link-to-Cell supported phone.
- * Check Bluetooth connection. "Phone Setting" works only when cell phone and Panasonic DECT are connected via Bluetooth.
- * "Phone Setting" does not work when DECT phone is in use.

Cannot stop Text Message notification even if "Text Message" check box is disabled in App Alerts setting. * If cell phone supports MAP(Message Access Profile) feature, it will notify text message without App Alerts. Please disable MAP feature as following. The process is different depending on the cell phone.

Type 1 : Disable MAP feature from Bluetooth setting.

If "Message Access" is not seen, please try "Type 2" process.

Type 2 : Reject MAP request just after paring Bluetooth. Unpair and Re-pair Panasonic DECT again. After paring, MAP request will appear. Please reject this request.
